Position: Frontend/React JS Developer

Experience: 3-7 years
Location: Indiranagar, Bangalore (onsite)
Employment Type: Full-time
Notice Period: Immediate to 2 weeks

Job Description:

We are seeking a talented Frontend/React JS Developer to join our team. The ideal candidate should have a minimum of 3 years of experience in developing and implementing user interface components using React.js concepts and workflows. The candidate should be proficient in building reusable components and front-end libraries for future use and translating designs and wireframes into high-quality code.

Key Responsibilities:

- Develop and implement user interface components using React.js concepts and workflows.
- Build reusable components and front-end libraries for future use.
- Translate designs and wireframes into high-quality code.
- Optimize components for maximum performance across a vast array of web-capable devices and browsers.
- Develop a flexible and well-structured front-end architecture, along with the APIs to support it.
- Collaborate with cross-functional teams to design and implement new features.
- Participate in code review, testing, and deployment.
- Identify and troubleshoot software issues and bugs.
- Stay up-to-date with emerging trends and technologies in software development.

Required Skills:

- Strong proficiency in React.js and JavaScript.
- In-depth knowledge of front-end technologies such as HTML, CSS, and JavaScript frameworks.
- Excellent front-end coding skills and a good understanding of progressive web applications.
- Experience with API development and integration.
- Hands-on experience in Agile/Scrum development methodologies.
- Excellent problem-solving and analytical skills.
- Good communication and interpersonal skills.
