Position: Project Manager

Experience: 5-8 years
Location: Indiranagar, Bangalore (onsite)
Employment Type: Full-time
Notice Period: Immediate to 2 weeks

Job Description:

We are looking for a skilled Project Manager to join our team. The ideal candidate will be responsible for managing IT projects from end to end. The candidate should have at least 5-8 years of experience in managing cross-functional project teams and should be adept at developing project plans for all phases of the project life-cycle, including quality and risk management.

Key Responsibilities:

- Acts as the liaison between the project teams and the customer.
- Responsible for ensuring successful cross-functional management and oversight of the project teams.
- Develops project plans for all phases of the project life-cycle, including quality, risk management, and proactive contingency plans, ensuring that issue escalation and resolution are clear.
- Facilitates communication across the project teams.
- Maintains and evaluates the progress by using company tracking systems and project timelines reviews.
- Monitors the quality of project deliverables and addresses quality issues with the appropriate team members.
- Supports resolution of project-related conflicts with necessary corrective action and alerts senior management to potential issues.
- Continually reviews and makes recommendations to ensure adequate resources are available to meet project deliverables and milestones.

Required Skills:

- Strong project management experience with a focus on IT projects.
- Excellent communication and interpersonal skills.
- Ability to work with cross-functional teams.
- Experience in risk management and contingency planning.
- Experience with project tracking systems.
- Strong problem-solving and analytical skills.

Education and Additional Skills:

- Bachelor's Degree in a related field.
- PMP certification is good to have.
