Position: UI UX Designer

Experience: 3-6 years
Location: Indiranagar, Bangalore (onsite)
Employment Type: Full-time
Notice Period: Immediate to 2 weeks

Job Description:

We're seeking a UI/UX Designer with 2-5 years of experience designing mobile and web applications, a strong portfolio showcasing their work, and proficiency in UI/UX, user-centric design, and best practices. The ideal candidate will have a good sense of visual aesthetics, functionality, interaction, and problem-solving ability to create amazing user experiences. They must be well-versed in tools like Figma, XD, Sketch, After Effects, Adobe Illustrator, etc., able to manage timelines within a fast-paced environment and collaborate with the team to create top-notch products.

Key Responsibilities:

- Collaborate with the team to create a top-notch product, providing its users with a delightful experience.
- Create best-in-class user flows, wireframes, visual mockups, and prototypes based on research, business requirements, and usability.
- Ideate, define, and develop features.
- Ensure the product is visually appealing, user-friendly, and intuitive.
- Continuously monitor, troubleshoot, and improve user experience design.
- Work in tandem with senior design management, junior designers, coders, product team, and other stakeholders.

Required Skills:

- Strong portfolio showcasing work on mobile and web applications.
- In-depth knowledge of UI/UX design and best practices.
- Excellent problem-solving and analytical skills.
- Good communication and interpersonal skills.
- Well-versed with tools like Figma, XD, Sketch, After Effects, Adobe Illustrator, etc.
- Experience working in a fast-paced environment.
